

ST Series

Positioning your speakers with your ears and away from objects that could cause reflections allows you to extract maximum performance from your speakers. Enhance your audio experience with the ST-series floor-standing speaker stands designed for bookshelf and standmount speakers up to 30 lbs. These stands are made with sturdy steel columns and a wood base for increased weight and stability. Leveling rubber feet are included for hard floors along with carpet spikes for secure floor coupling. Built-in cable management keeps your cables organized and out of sight while the understated design of these stands complements any home decor. The ST series speaker stands are sold as a pair and are available in 28" or 34" heights with a black MDF base.

TECHNICAL ILLUSTRATIONS

BETTER SOUND

Line speakers up with your ears, place them in the room to avoid peaks or nulls in bass response, and reduce reflections from walls or furniture that can combine with the incoming audio signal and muddy the sound.

TIMELESS DESIGN

Sporting an understated, timeless design, ST looks great in any room. Available as a pair in 28" or 34" heights with a black MDF base.

CLUTTER FREE

Route speaker wire and full-size power cables through the spacious steel column to keep your wiring organized and out of sight while reducing tripping hazards.

HEAVY-DUTY

Made with sturdy steel tubing to reduce vibrations and increase stability, ST-series is compatible with speakers up to 30 lbs each.

ALL SURFACES

Height adjustable rubber feet and carpet spikes let you use ST on any floor and level your speakers for superior performance and looks.
